[Despatch Abstract.]

Jails — Central Jail, Bellary — Purchase of an Electric Auto Pump — Sanctioned. Existing Petter's Oil Engine by the Jail-authorities concerned.

Jail Department. 16794

From

C.S.Gill M.B., Ch.B.,

Inspector General of Prisons,

M A D R A S.

To

The Secretary to Government,

Home Department,

M A D R A S.

ASSISTANT SECRETARY TO GOVERNMENT
27 FEB 1949
HOME DEPARTMENT

No.174/A.2/49 dated 25-2-1949.

Sir,

Sub: Jails- Central Jail, Bellary- purchase of an electric Motor with pump - sanction - requested:

- - -

The peter's Oil Engine installed in the Nagamma well of the Central Jail, Bellary has gone out of order and is not working since November, 1948. The Supervisor of Industries, Bellary who inspected the engine on 5.11.48 reports that the engine requires thorough over-hauling and reboring of the cylinder and that it cannot be repaired satisfactorily by the local Engineering Firms as it requires skilled labour for turning fitting and boring works. He, therefore, recommends the transmission of the Engine to the Public Works, Workshops, Madras for repairs and the purchase of an electric Motor pump (3"x3" centrifugal pump attached with 7½ B.H.P.) from M/s. Marshall & Sons, Madras.

2. In his letter No.W.4347M d/30-12-1948, the Superintendent, Public Works workshops, Madras reports that the repair of the oil engine can be taken up only during April 1949 due to other urgent works already on hand. At present the entire requirements of water for the jail and garden are now obtained from the Electric Motor Pump installed in the Nagamma well of the jail and it is unable to supply the full requirements of the jail. Further, a very severe summer is expected this year on account of the failure of the monsoon and unless another water-pump is installed in the Nagamma well of the jail, it will be very difficult to solve the water problem during the coming summer.

3 In the above circumstances, I request that the Government may be pleased to accord sanction to purchase an Electric Motor Pump at a cost of Rs.1950/- packing and forwarding charges extra from Messrs. Marshall & Sons, Madras. The Peter Oil Engine will be sent to the Public Works Workshops, Madras for repairs during April 1949 and kept as a standby.

4 The extra expenditure involved in thproposal will be met either from the supplementary grant already applied or under the appropriations to be sanctioned for 1949-50 and debited to "28.A.Jails and convict settlements - C.Central Jails - a.C.4 contingencies - Livestock, Tools & Plant - Conservancy and water supply deadstock."

No.174/A2/49 Dated 25-4-49.

Sir,

Sub:- Jails - Central Jail, Bellary - Purchase of an Electric Motor Pump.

Ref:- This office letter No.174/A.2/49 dated 18-4-49.

In continuation of this office letter cited above, I forward herewith a copy of letter No. G.1183/49, dated 19-4-49 (with its enclosure) from the Superintendent, Central Jail, Bellary stating that the General Superintendent, P.W.D. Workshops, Madras has expressed his inability to furnish the estimated cost of repairs to the oil engine without actually seeing the machine to find out what actual quantity of materials are required for repairs.

2. I request that Government may be pleased to issue necessary orders directing the General Superintendent, P.W.D. Workshops to depute one of his mechanics to inspect the oil engine at the Central Jail, Bellary for furnishing an estimate of repairs.

I concur with the Superintendent that this arrangement will be cheaper than the expenditure for transporting the entire oil engine from Bellary to the P.W. Workshops, Madras.

3. Further report will be submitted immediately on receipt of particulars from the Superintendent, Central Jail, Bellary, with regard to the repairs to the oil engine to be done by Messrs. The Crompton Engineering Co. Ltd., Madras, with whom the matter is under correspondence.

Early orders are requested in the matter.

INSPECTOR GENERAL OF PRISONS.

Copy to the Superintendent, Central Jail, Bellary.

2. He is requested to report the result of his correspondence with Messrs. The Crompton Engineering Co. Ltd., Madras in due course.

Sub:- Repairs to Petter Engine 12/14 B.H.P. 'S' Type.

- - -

We are in receipt of your letter No.C.309/49 dated 31-1-49 and note what you write. From the estimate given by the local workshops we infer that the cylinder of the above engine requires re-boring. As we have no workshop we regret we are not in a position to undertake this work but we can supply you the new spare parts for the engine quoted as under and if the engine is sent to us we shall fit them to the engine and test it for which the charges will be extra.

Details

Oversize Piston SCH1	...	Rs. 333/14	each
Standard Piston SCH 1	...	304/4	"
Cylinder SCO.2	...	495/12	"
Main bearing SCG 2(top)	...	73/8	"
-do- SCG 3 (bottom)	..	106/4	"

The Oversize piston recommended by the makers is only 1/16" over standard bore. If the cylinder is worn out beyond 1/16" then the makers recommend a new cylinder of standard bore with a standard piston. Therefore we have quoted for both standard and oversize pistons.

We also arrange to depute our mechanic and the charges for his service would be Rs. 12/8/0 per day plus to and fro Inter Class train fare and other incidental charges. Please let us have your reply to enable me to proceed further in the matter.

Assuring you of our best attention at all times.

In forwarding herewith copy of the report of the Supervisor of Industries, Bellary regarding certain repairs to Oil Engine N in Nagamma well of this jail (S.Type 12-14.B.HP. 525 RPM.) I request you to inform me whether the repairs can be undertaken by you.

If so please let me know whether whole of the Engine has to be sent to Madras for carrying out the repairs. An early reply is requested.

Copy of the report of the Supervisor of Industries Bellary No.30.CD./48 dated 14-11-48.

Sub: Central jail Bellary - Oil engine - repairs.
Ref: Letter No.G/2755/48 dated 1-11-48.

The peter oil engine (S.Type.12.14.B.H.P.525 R.P.M.) has undergone minor repairs during 47-48 and 1948 upto this date about three or four times. Minor repairs such as piston rings, bearings, oil pump etc. were carried with local skilled labourers.

On 5/11/48 I inspected the engine. Thoroughover-hauling of the engine including re-boring of cylinder is required. Hence skilled labour in turning and fitting and boring works are required. The engine may be sent to the P.W.D.workshops Madras for repairs.

JUN 1949 HOME DEPARTMENT

In Home Department Memo No.16799 C/49-4 dated 12-5-49, the Government requested the General Superintendent, to have the oil engine at the Central Jail, Bellary, inspected by a suitable officer of his Department and to furnish to the Government through the Inspector-General of Prisons an estimate of the cost of repairs with information as to the period for which the Engine was likely to serve after the repairs. But it is seen from the General Superintendent's letter read above that no officer of the workshops has inspected the oil engine as required by Government. For the submission of the estimate, the General Superintendent wants that the engine should be sent to the P.W. Workshops, Madras for survey. The General Superintendent is requested to state whether the engine cannot be stripped and surveyed at Bellary itself and the estimate submitted if a suitable officer of the workshops with necessary technical assistants are sent to Bellary. A reply should be sent before 10-6-49.

Copy of letter No. 334 CE dated 1-6-49 from the General Superintendent P.W.Workshops Madras to the Chief Engineer, P.W.D. General Madras

Sub:- Central Jail Bellary - Estimate of the cost of reparis to the oil engine installed in the Jail

Ref:- Your Memo.No. 3597 Wks/49-1 dated 30-5-49

I beg to represent as following

1) The engine has been already inspected by the Supervisor Bellary who has reported that it requires reboring of the cylinder and new oversize piston in addition to through overhaul. For this major repair the engine will any how have to be sent to Madras. The engine is a type which is obsolete for which spares are not available. My impression is that it will be found as not worth reconditioning and have to be auctioned off. It was considered that it would fetch a better price in auction at Madras than at Bellary.

2) For the stripping and examination at Bellary I would have to send the machine repair shop chargeman with an Assistant and tools. At present this section is working shorthanded due to a number of leading machanics being sent for outstation work (a list is enclosed for reference) The absence of the chargeman will hence handicap workshop work.

3) It was on these consideration that the recommendation for sending the engine to Madras was made.

4) Kindly let me have your instructions whether I should send my chargeman to Ballary.

and para 3 p. 2 c.f

2. The expenditure should be debited to the relevant sub-head of appropriation under "28.Jails and Convict Settlements."

& para 1 p 2 c.f.

3. The I.G. of Prisons is requested to furnish the approximate cost of repairs to the existing Peter's oil engine in the Central Jail, Bellary and to state whether, in view of the sanction for a new Electric Pump in para 1 above, it is necessary to carry out the repairs now and keep the oil engine as a stand by or whether it may not be disposed of.

c.f note below

Rs 1243 per 9
12.3.49

14.3.49

To the I.G. of Prisons,
A.G. through the
Fin. Dept (para 1 & 2 only).

Note:-

In the circumstances explained by the I.G. of Prisons, in paras 1 and 2 on p.1 c.f., his proposal to purchase an electric motor pump for the Central Jail, Bellary may be approved.

It is stated that the existing engine requires thorough overhauling reboring of the Cylinder etc. at the P.W.D. workshop, Madras. Though the approximate cost of the repairs has not been stated, it appears that it will be considerable. In view of this and the fact that it is proposed to be kept only as a stand by, the

para 1 p 1 c.f.

be asked whether the repairs should be carried out at all now.

Subject to orders (orders on p1.), the draft above is submitted for consideration. If approved, it may be sent to Finance for acceptance.

Since the old engine is not irreparable it would seem to be uneconomical to purchase a new engine at a cost of Rs 1,950 as proposed.

If it is not possible to wait till April 1949 and have the engine repaired by Public Works Workshops, the engine may, as a special case, be got repaired by some Engineering firm at Madras and used at the Central Jail, Bellary.

In these circumstances, this Department may advise against the proposal.

X

Enna 2, PWD

C&L

15-3-49 ADS

'X' above Home may kindly call for a report from the Dept. of Prisons as to whether the course suggested at 'X' above will be economical. An estimate of the cost of repairs and the period for which the engine can serve after repairs may also be called for. It seems desirable also to settle the point mentioned in para 3 of draft orders before a new engine is purchased

[Issued as Memo. No. 16799 C/49-2 dated 23-3-49]
from the I.G. Prisons No. 174/A2/49 dated 18-4-49.
from the I.G. of Prisons No. 174/A2/49 dated 25-4-49.

Please see the I.G's ~~letter~~ reply at p 9 cf to the Memo. at pp 7-8 cf. The I.G. has stated that the General Supdt. P.W., workshops ~~Coonoor Ootacamund or Bellary~~ has expressed his inability to furnish the estimated cost of repairs to the oil engine without actually seeing the machine to find out what actual quantity of materials are required for repairs. He has therefore requested the Govt. to issue necessary orders to the General Supdt.; P.W.D. Workshops to depute one of his mechanics to inspect the oil engine at the C.J. Bellary for furnishing an estimate of repairs as this arrangement will be cheaper than the expenditure for transporting the entire oil engine from Bellary to the P.W. Workshops, Madras. In the circumstances stated the I.G's request may be agreed to & this dept. A draft memo. is submitted for approval. P.W. may see before issue

2. The I.G's report regarding the estimate of the cost of repairs by a private Engineering firm (in this case the Crompton Engineering Co. Ltd.) as well as his reply to para 2 of the memo on pp 3-4 if may be awaited

(Issued as Memo No. 16799 C/49-4, dated 12/5/1949)
From the Chief Engineer, P.W. (Buildings), Endorsement 3597/Wks/49-3 dated 8/6/1949.

pp 3-14 cf p 15 cf

The case relates to the I.G's proposal to purchase an Electric Motor Pump at a cost of Rs. 1950/- for the Central Jail, Bellary as the existing Peter's Oil Engine has gone out of order. The I.G. stated in February 1949 that the Peters Oil Engine would be sent to the Public Works Workshops, Madras for repairs during April 1949 and kept as a standby. As it was expected that the cost of repairs to the existing Oil Engine would be considerable it was proposed to keep the oil engine after repairs only as a standby, this dept. proposed to sanction the purchase of an Electric Motor Pump. The Finance dept. stated that since the old engine was not irreparable it would seem uneconomical to purchase a new engine at a cost of Rs. 1950/- and suggested that an estimate of the cost of repairs and the period for which the existing oil engine would serve after repairs might be called for before a new engine was purchased. They also suggested that if it was not possible to wait till April 1949 and have the engine repaired by the Public Works Workshops, the engine might, as a special case, be got repaired by some engineering firm at Madras. The I.G.

was accordingly addressed to furnish the particulars. A

2. As regards the ~~repai~~ possibility of getting the oil engine repaired by ~~the~~ an engineering firm at Madras, the I.G. has forwarded copies of correspondence between the Superintendent, Central Jail, Bellary and the Crompton Engineering Co., Madras. The Superintendent, Central Jail, Bellary has stated that Messrs Parry & Co., Madras has reported on behalf of Messrs Crompton Engineering Co. Ltd., Madras, that it has no workshop for undertaking the repairs to oil engines and that it can supply only spare parts.

c/f para 1, p 9 c/f

3. The General Supdt., P.W. Workshop, Madras expressed his inability to furnish the estimate of cost of repairs to the oil engine without seeing the machine to find out what ~~actual quantity of~~ materials were required for repairs. The I.G. therefore requested the Government to issue necessary orders to the General Supdt., P.W.D. Workshop to depute one of his mechanics to inspect the oil engine at the Central Jail, Bellary for furnishing an estimate of repairs, as this arrangement would be cheaper than sending the engine to the P.W.W., Madras. The General Supdt. P.W.W. was accordingly instructed in the Memo at pp. 13-14 c.f. sent through the Chief Engineer.

⊖ para 2, p 9 c/f

The Chief Engineer has now stated that

4. ~~In~~ the circumstances stated by the General Supdt., in his letter copy at pp. 21-22 c.f., he has directed the General Supdt. to arrange to get the engine to Madras for thorough examination and to submit an estimate of the cost of repairs and requests that his action may be ratified.

✕ c/f p 16 c/f

5. In view of the ~~r~~report of the General Superintendent, P.W. Workshops on p. 21 c.f. it is for orders whether the action of the Chief Engineer may be ratified.

A draft memo is subd. for approval. P.W. and Finance may see before issue.

Para 4 c/f

24/6/49

p 21 c/f

P.W. for.

The Gen Supdt P.W. Workshops has reported that the engine is of a type which often stands in need of work like reconditioning. He suggests that it might be authorised in the circumstances.

it would appear the ~~if~~ the reason to ~~have~~ get the engine repaired will further ~~before~~ agree to the purchase of an electric motor pump as proposed by the TG + the present one be anchored.

may be suitably altered.

2. In this connection it is submitted that the Chief Engineer P.W.D. (Buildings) has directed the General Supdt., P.W.P. Madras to get the Peter's Oil Engine at the C.J. Bellary to Madras for thorough examination and submission of an estimate of the cost of repairs and has asked that his action may be ratified by the Govt. As the General Supdt., P.W.P. has stated that the engine is likely to fetch a better price in auction at Madras than at Bellary, the C.E's action in having asked the engine to be brought to Madras may be approved.

3. The General Supdt, P.W. Workshops may be asked to conduct the auction of the engine in consultation with the I.G of Prisons.

4. A revised draft order is submitted for approval P.W. and Finance may see before issue.
